Recycled HDPE

HDPE (High Density Polyethylene) is a composite plastic lumber. Composed of recycled Type 2 plastic, commonly found in milk, soap, and oil containers. The material is not only environmentally friendly, but also very resistant to impact, friction, chemicals, and moisture, making it incredibly durable in a wide array of environments.

Unlike wood that requires frequent maintenance, the HDPE material will last far longer without fading, cracking, chipping, or decaying. Often our clients get 10+ years before seeing any significant fading. HDPE is the perfect all weather material with the least amount of maintenance possible. A light pressure cleaning yearly with a wet rag keeps your furniture looking new for years.

“ Golf Sign and Design came in and provided a proposal for us for our renovation that not only saved us money, but also kept us from having to hire 3 different vendors. They provided all of our furniture, including custom pieces, our signs for the course and clubhouse, our yardage books and they even measured our course as part of the package. I have received great service and always at a very fair price. I recommend Tom Eubank and Golf Sign & Design to anyone needing furnishings, signage or yardage guides. ”

Landon (Lanny) Clark, Superintendent of Golf Course Operations
 Kensington Golf and CC

Water Coolers

Metal cooler box inserts

No other manufacturer comes close to the quality of GSD's unique cooler design. Our one of a kind boxes are fabricated out of thick aluminum, powder coated with a food grade coating, and insulate the ice far longer than any other brand.

The base of the insert tapers to allow full drainage of all left over water for easy cleaning of the units as needed. Beneath the pan and out of sight is a brass release fitting allowing you to drain as needed. Our metal inserts are encased in 1.5" of HD insulation with a R factor of 6 to extend the ice retention.

| Capacity | Code | Height | Dimensions(W x D x H) |
|--------------|----------|--------|-----------------------|
| 50 Qt | GI3050M | Mid | 30"x23"x32" |

Cushion Options

We only offer sunbrella fabric, the longest lasting and most water repellent fabric on the market. The material has been engineered to withstand all weather conditions; proven to resist mold and to fight the Sun's UV rays from fading. Not only is Sunbrella's fabric all-weather, it offers easy cleaning with simple soap and water. Choose from our selection of 15 color samples to find an option that best suits you.
